

Dear Congressperson,

I urge you to support, co-sponsor and rapidly enact H.R. 6645*, the “Disengaging Entirely From the United Nations Debacle” Act, in order to completely withdraw the United States from the United Nations, World Health Organization and all related bodies and obligations (including the International Health Regulations), thus restoring our national independence and safeguarding our personal freedoms.

*<http://www.congress.gov/bill/118th-congress/house-bill/6645>

The United States must fully disengage from the United Nations and World Health Organization. The downside of continued membership in these organizations far outweighs any benefit.

You will never get my vote in the future unless you support our immediate withdrawal from these dangerous organizations.

We face an unprecedented assault on our national sovereignty and our personal freedoms through continued membership in the United Nations, the World Health Organization and associated organizations and obligations.

The organizations themselves oppose our Constitutional freedoms. For example, the Universal Declaration of Human Rights grants rights that can be cancelled. The United States, on the other hand, recognizes unalienable rights which cannot be cancelled.

The future of the United States depends, quite literally, on the implementation of a complete withdrawal from all of these organizations.

I urge you to work vigorously with other members of the House to enact H.R. 6645* in order to withdraw from the United Nations, World Health Organization and all other related organizations and obligations.

Sincerely

Dear Senator,

I urge you to support, co-sponsor and rapidly enact S. 3428*, the “Disengaging Entirely From the United Nations Debacle” Act, in order to completely withdraw the United States from the United Nations, World Health Organization and all related bodies and obligations (including the International Health Regulations), thus restoring our national independence and safeguarding our personal freedoms.
