

Top Ten Reasons To Reject The Proposed Amendments to the International Health Regulations

The following excerpts are quoted from the proposed amendments to the International Health Regulations.

1. LOSS OF DIGNITY, HUMAN RIGHTS AND FUNDAMENTAL FREEDOMS: “The implementation of these Regulations shall be ~~with full respect for the dignity, human rights and fundamental freedoms of persons~~ **based on the principles of equity, inclusivity, coherence and in accordance with their common but differentiated responsibilities of the States Parties, taking into consideration their social and economic development.**” (page 3)

2. DICTATORIAL POWER GIVEN TO THE DIRECTOR GENERAL: “The Director-General, on the basis of information received, may determine at any time to issue an intermediate public health alert” (page 9).

“Immediately after the determination of a public health emergency of international concern under Article 12, the Director General shall make an immediate assessment of availability and affordability of required health products and make recommendations, including an allocation mechanism... (page 13)

WHO shall develop and allocation plan for health products so as to ensure equitable access to people of all States Parties. Upon request of WHO, States Parties shall ensure the manufacturers within their territory supply the requested quantity of the health products to WHO or other States Parties as directed by WHO in a timely manner in order to ensure effective implementation of the allocation plan.” (page 12)

3. DICTATORIAL POWERS GIVEN TO THE UNELECTED REGIONAL DIRECTORS OF THE WHO: “A Regional Director may determine that an event constitutes a Public Health Emergency of Regional Concern (PHERC).” (page 10)

4. NEW AUTHORITY/SOVEREIGNTY HANDED OVER TO THE WHO: “States Parties recognize WHO as the guidance and coordinating authority of international public health response during public health Emergency of International Concern and undertake to follow WHO’s recommendations in their international public health response.” (page 12).

5. PASSENGER LOCATOR FORMS (PDF): “Documents containing information concerning traveller’s destination should preferably be produced in digital form, with paper form as a residual option... provided the competent authority can have access to it for the purpose of contact tracing. Documents meeting such requirements shall be recognized and accepted by all Parties.” (page 18)

6. HEALTH CERTIFICATES (1): “Health documents may be produced in digital or paper form, subject to the approval by the Health Assembly of the requirements that documents in digital form have to fulfil with regard to interoperability of information technology platforms, technical requirements of health documents, as well as safeguards to reduce the risk of abuse and falsification and to ensure the protection and security of personal data contained in the health documents. Health documents meeting the conditions approved by the Health Assembly shall be recognized and accepted by all Parties.” (page 20)

7. HEALTH CERTIFICATES (2): “Other types of proofs and certificates may be used by Parties to attest the holder’s status as having a decreased risk of being the disease carrier, particularly where a vaccine or prophylaxis has not yet been made available for a disease in respect of which a public health emergency of international concern has been declared. Such proofs may include test certificates and recovery certificates. These certificates... should be deemed as substitutes for, or be complementary to, the digital or paper certificates of vaccination or prophylaxis.” (page 20)

8. VIOLATION OF PRIVACY: “States Parties may disclose to only internal and relevant personnel and process and disclose personal data where essential for the purposes of assessing and managing a public health risk.” (page 25)

9. CENSORSHIP: “At the Global level, WHO shall strengthen capacities to... counter misinformation and disinformation.” (page 36)

Top Ten Reasons Why Every Nation On Earth Should #ExitTheWHO

1. POWER GRAB: The WHO is blatantly seeking to increase its power by pursuing a legally-binding proposed “Pandemic Treaty” and proposed amendments to the International Health Regulations.

2. CONFLICTS OF INTEREST AND CORRUPTION: The WHO is infiltrated by Big Pharma, Big Money, and Big Foundations and has been corrupted by financial donations from corporations and non-governmental organizations which influence WHO policy in ways that benefit the corporations and the organizations through a money-laundering and influence-peddling scheme of massive proportions. The WHO follows the dictates of its so-called “relevant stakeholders” while ignoring the needs and desires of “We the People.”

3. VACCINE MADNESS: Influenced by vaccine manufacturers and vaccine pushers such as GAVI and Bill Gates, the WHO has lost sight of its core purpose of promoting health and has overemphasized the use of “vaccines” which have not improved health, but have actually degraded the overall health of billions of people around the world. Best practices designed to improve health are ignored in favor of actions ultimately designed to profit Big Pharma.

4. BUREAUCRACY AND WASTE: The WHO is dominated by bureaucrats and technocrats that are beholden to big Pharma, not knowledgeable health professionals that are dedicated to caring for patients and helping them maintain and improve their health. The WHO wastes enormous amounts of money on salaries for their bloated staff and travel expenses to such a degree that actual health related programs are chronically underfunded.

5. FEAR-MONGERING: The WHO has sounded the alarm and wasted time, effort and money by declaring FAKE Public Health Emergencies of International Concern (PHEICs) such as Moneypox and Swine flu (H1N1) while failing to act swiftly or effectively to address Ebola and COVID-19.

6. HORRIBLE RECOMMENDATIONS: The WHO has made horrible and corrupt recommendations in support of the expanded use of pharmaceutical drugs such as opiates that have been responsible for untold millions of unnecessary deaths.

7. FALSE MODEL OF HEALTH: The WHO is overly dependent upon the petro-chemical based pharmaceutical, medical, hospital industrial complex which practices allopathic medicine that is designed to alter and mask symptoms rather than actually improve health. The WHO does not offer a forum for clinical and scientific discussion or debate and clearly marginalizes natural healing modalities.

8. MISTAKES: The WHO has repeatedly demonstrated that it is absolutely unwilling and incapable of learning from its mistakes of the past and is destined to continue wasting money while providing horrible advice based on the corruptive influence of Big Pharma and Bill Gates

9. OUT-OF-TOUCH: The delegates to the World Health Assembly are unelected, unaccountable, unknown to the people they purport to represent and completely out of touch with the needs and desires of the people of their respective nations.

10. SECRECY: The WHO operates in secrecy and lacks transparency. Far too much of what is done by the WHO remains hidden. What we know is horrible. What we don't know may be monstrous.

We hold these truths to be self-evident:

1. EVERYONE has the inalienable right to make their own individual health related decisions.
2. The virus that has been named SARS-COV-2 has never been properly isolated. No one has provided actual evidence of its existence, even though hundreds of Freedom of Information Act requests for such evidence have been submitted.
3. SARS-CoV-2 has not been properly shown to be the sole cause of a collection of symptoms that have come to be known as COVID-19. Mis-diagnosis has been widespread.
4. The genetic sequence that was used to design the COVID-19 “vaccines” was created “in silico” (in a computer), not by nature. The “spike protein” that is said to be produced in the body due to the COVID-19 injections is a man-made biological weapon that is not found in nature.
5. RT-PCR “testing” to determine “asymptomatic cases” is fraudulent.
6. Epidemics, pandemics and states of emergency must not be predicated on manipulated tests that are said to determine “asymptomatic cases.”
7. “Two weeks to flatten the curve” was a lie that clearly failed.
8. Lockdowns, curfews, travel restrictions, social distancing and mask mandates failed miserably and have never been shown to reduce the spread of respiratory pathogens.
9. The use of ventilators, and the drugs that are associated with their use, did not save lives, they shortened lives.
10. Many people have died, but the reasons behind their death are exceedingly unclear and multi-faceted.
11. Masks do not stop the spread of pathogens and, in fact, they can aggravate respiratory diseases.
12. Remdesivir has caused more harm than good.
13. The COVID-19 “vaccines” were rushed into use and were NEVER shown to be “safe” nor “effective”. In fact, those terms have no legal definition.
14. Incentivizing the diagnosis of “COVID-19” with a 20% bonus payment to hospitals was a mistake and encouraged poor treatment and corruption.
15. Many people have been killed by the COVID-19 injections.
16. Many people have been permanently disabled by the COVID-19 injections.
17. Many people have suffered immune, cardiovascular, nervous system, kidney, liver and other systemic damage due to the COVID-19 injections. Their injuries are real, not rare.
18. Essential medicines and natural substances along with intelligent early treatment by wise and courageous doctors around the world were far more successful in preventing hospitalization and saving lives than the official protocols.
19. Censorship of those who were merely seeking to expose the truth is wrong and is a violation of the scientific method as well as our inalienable right to free speech and freedom of the press.
20. The declaration of a “state of emergency” does not give anyone the authority to trample upon an individual’s inalienable rights. PERIOD.
