

Dear Public Servant:

I am sending this email to notify you that other nations of the world, in league with the World Health Organization, have been and are currently engaged in secret actions that threaten Australian sovereignty and assault the dignity, human rights and fundamental freedoms of We, the People of Australia.

PROPOSED AMENDMENTS TO THE INTERNATIONAL HEALTH REGULATIONS:

https://apps.who.int/gb/wgihhr/pdf_files/wgihhr1/WGIHR_Compilation-en.pdf

https://apps.who.int/gb/wgihhr/pdf_files/wgihhr1/WGIHR_Submissions-en.pdf

**I DEMAND THAT YOU PERSONALLY READ THESE DOCUMENTS.
DO NOT SIMPLY ASSIGN THIS TASK TO A MEMBER OF YOUR STAFF.**

You must realize that this is NOT the proposed “Pandemic Treaty.”

The proposed "Pandemic Treaty" is an entirely separate and different issue!

The Australian Parliament will NOT be asked to approve these amendments.

Yes, you read that correctly!

Please do NOT respond to me and refer to the proposed “Pandemic Treaty.” That is NOT what I am writing to you about. That is NOT the issue at hand. This is about the proposed amendments to the International Health Regulations.

Please to NOT respond to me and claim that the adoption of these amendments will require acceptance by the Parliament. That would be a clear misunderstanding of Article 55 of the International Health Regulations.

Please do NOT respond by sending this link to me: <https://www.health.gov.au/our-work/strengthening-global-health-and-international-pandemic-response> because that web page does NOT in any way address the matter that I am bringing to your attention.

Negotiations are currently underway that could force the proposed amendments upon Australia even if Australian delegates vote against adopting the proposed amendments. These proposals are being negotiated without appropriate transparency and generally without the knowledge of the Australian people.

These proposals – and the way they may be adopted, implemented and enforced – run contrary to fundamental principles of Australian democracy: transparency, accountability, the rights of the individual not being subordinated to the interests of the state, and laws being made by representatives fairly and freely elected by the people.

This a blatant POWER GRAB without accountability by the WHO, and it is most definitely not something Australia – a free representative democracy with a proud history of opposing authoritarianism and tyranny – should tolerate in principle or in practice.

Australia has unique health challenges and only Australians should be ultimately determining the health policies which meet these challenges.

If these amendments are adopted, We, the People of the Australia, would lose our unalienable right to privacy regarding our health and medical choices as well as our freedom to travel.

If these amendments are adopted, national sovereignty would be dissolved and would be replaced by a global medical and financial dictatorship.

The proposed changes are being thrust upon Australia by other member nations, many of whom are supposed to be our “allies.”

The proposed amendments would:

1. **CHANGE THE NATURE OF THE WHO FROM ADVISORY TO MANDATORY:** Change the overall nature of the World Health Organization from an advisory organization that merely makes recommendations to a governing body whose proclamations would be legally-binding. (Article 1 and Article 42)
2. **POTENTIAL RATHER THAN ACTUAL EMERGENCIES:** Greatly expand the scope of the International Health Regulations to include scenarios that merely have a “potential to impact public health.” (Article 2)
3. **DISREGARD FOR DIGNITY, HUMAN RIGHTS AND FREEDOMS:** Seek to remove “respect for dignity, human rights and fundamental freedoms of people.” (Article 3)
4. **ALLOCATION PLAN:** Give the Director General of the WHO control over the means of production through an “allocation plan for health products” to require developed states parties to supply pandemic response products as directed. (Article 13A)
5. **MANDATORY MEDICAL TREATMENTS:** Give the WHO the authority to require medical examinations, proof of prophylaxis, proof of vaccine and to implement contact tracing, quarantine and TREATMENT. (Article 18)
6. **GLOBAL HEALTH CERTIFICATES:** Institute a system of global health certificates in digital or paper format, including test certificates, vaccine certificates, prophylaxis certificates, recovery certificates, passenger locator forms and a traveller’s health declaration. (Articles 18, 23, 24, 27, 28, 31, 35, 36 and 44 and Annexes 6 and 8)
7. **LOSS OF SOVEREIGNTY:** Would empower the Emergency Committee to override decisions made by sovereign nations regarding health measures and would make the Emergency Committee’s decisions final. (Article 43)
8. **UNSPECIFIED, POTENTIALLY ENORMOUS FINANCIAL COSTS:** Redirect unspecified billions of dollars to the Pharmaceutical Hospital Emergency Industrial Complex with no accountability. (Article 44A)
9. **CENSORSHIP:** Greatly expand the World Health Organization’s capacity to censor what they consider to be mis-information and dis-information. (Annex 1, page 36)
10. **OBLIGATIONS OF DUTY TO COOPERATE:** Creates an obligation to build, provide and maintain IHR infrastructure at points of entry. (Annex 10)

The International Health Regulations are existing, legally-binding international law. The 76th World Health Assembly is scheduled to occur from Sunday May 21, 2023 to Tuesday May 30, 2023. If the proposed amendments are presented to the 76th World Health Assembly, they could be adopted by a simple majority of the 194 member nations.

It should be noted that according to the existing IHR, adoption and imposition of these proposals would not require ratification in Australia's Parliament, or even the signature of our Prime Minister. They will simply take effect, imposing rules and requirements on Australia which its people had no say in developing.

These proposed amendments would give the World Health Organization virtually unlimited power, authority, and resources at the expense of national sovereignty and personal autonomy.

The Australian Delegation to the World Health Organization has NOT submitted any proposed amendments to the International Health Regulations. Nor have they publicly commented on them.

The members of the Australian Delegation to the World Health Organization are unelected, unaccountable and unknown to the general public. They are bureaucrats and technocrats working behind the scenes to give themselves more money, power and authority.

If this attempted power grab occurs, YOUR prominent position in the Australian government would become essentially impotent and meaningless.

I urge you to be brave and speak out publicly on this issue, IMMEDIATELY.

I DEMAND that you publicly address this issue in your OFFICIAL capacity as a public servant and clearly and plainly express your opposition to the proposed amendments to the International Health Regulations.

You must demand that these negotiations be stopped and an investigation must be conducted.

Until you speak out against these proposed amendments, I will be forced to assume that you support them

SILENCE IS CONSENT.

TIME IS OF THE ESSENCE.

TAKE ACTION IMMEDIATELY.

Sincerely,
