

To each and every member of the Senate and the House of Representatives:

I AM EXTREMELY DISAPPOINTED WITH YOU!

For seventeen months YOU HAVE FAILED TO SPEAK OUT AND YOU HAVE FAILED TO TAKE ANY ACTION to demand that President Biden reject the amendments to the International Health Regulations (IHR) that were adopted by the 75th World Health Assembly on May 27, 2022.

I want you to reach out to each and every member of the Senate and the House of Representatives to alert them regarding the upcoming December 1, 2023 deadline to REJECT THE AMENDMENTS.

I also want you to collaborate with other members of the Congress and the Senate to write and deliver a letter to President Biden insisting that he reject the amendments to the International Health Regulations before the deadline of December 1, 2023.

The Biden administration originally sought to amend Article 59 of the IHR in order to shorten the time period for entry into force from 24 months to 6 months in an attempt to ensure that any amendments adopted at the 77th World Health Assembly would come into legally binding effect within their term of office.

The amendment to Article 59 serves no legitimate health-related purpose. It will not improve the health, nor will it enhance the safety of any American. The primary purpose of the amendment to Article 59 is to reduce the time to reject the next round of amendments that are being negotiated in secret by the Working Group for amendments to the International Health Regulations. When the original package of amendments submitted by the Biden administration was rejected, they then attempted to save face by submitting a second, smaller and DIFFERENT package of amendments in violation of Article 55 of the IHR on May 24, 2022:

The submission of these proposed amendments by the Biden administration was in clear violation of Article 55, Section 2 of the International Health Regulations which states:

“The text of any proposed amendment shall be communicated to all States Parties by the Director-General at least four months before the Health Assembly at which it is proposed for consideration.”

To my knowledge, none of this information has been published in the Federal Register, nor have members of the House and the Senate been properly informed of these details by the Biden administration.

I expect you to take immediate action upon this issue. TIME IS OF THE ESSENCE.

Sincerely,
